

Plan a safe website update

Reduce surprises when changing software or integrations.

FROM THE SETLY PROJECT LIBRARY

A real project screenshot for visual inspiration. Follow the written steps for your own business.

YOUR ACTION PLAN

- 1 Read the update notes and identify affected features.
- 2 Record the current version and recovery option.
- 3 Test important journeys in a staging or safe test environment when available.
- 4 Schedule the change, verify it afterward and document the result.

EXAMPLE - ILLUSTRATIVE

A booking integration update is followed by a sample booking and confirmation check.

CHECK YOUR RESULT

Can you recover if the change breaks a critical customer journey?

Plan a safe website update

Use the prompts below to make this resource specific to your business. Save a local copy after completing it. Keep passwords and private customer data out of this worksheet.
