

Accessibility first-pass review

Find practical usability issues during development.

FROM THE SETLY PROJECT LIBRARY

A real project screenshot for visual inspiration. Follow the written steps for your own business.

YOUR ACTION PLAN

- 1 Use the keyboard to reach menus, buttons, forms and dialogs.
- 2 Check that visible focus makes the current control easy to identify.
- 3 Review headings, form labels and meaningful image descriptions.
- 4 Try larger text and check that important content remains available without overlap.

EXAMPLE - ILLUSTRATIVE

A contact field needs a persistent label; placeholder text alone disappears while typing.

CHECK YOUR RESULT

Can a keyboard user complete the main journey? This first pass is not a full audit.
