

Developer handover checklist

Keep control of your website after the project ends.

FROM THE SETLY PROJECT LIBRARY

A real project screenshot for visual inspiration. Follow the written steps for your own business.

YOUR ACTION PLAN

- 1 List ownership of the domain, hosting, source repository and connected services.
- 2 Record deployment steps, environment variable names and recovery procedures without exposing secret values.
- 3 Document routine edits and the agreed support boundary.
- 4 Ask the owner to complete one content update and locate the recovery instructions.

EXAMPLE - ILLUSTRATIVE

The business owns the repository and hosting account; the developer receives collaborator access.

CHECK YOUR RESULT

Could another qualified developer maintain the site from the handover?

Developer handover checklist

Use the prompts below to make this resource specific to your business. Save a local copy after completing it. Keep passwords and private customer data out of this worksheet.

Account or system:**Owner:****Access method:****Documentation:****Recurring cost:****Support contact:****DONE WHEN**

Could another qualified developer maintain the site from the handover?
