

Write a developer-ready feature request

Turn a wish into a testable piece of work.

FROM THE SETLY PROJECT LIBRARY

A real project screenshot for visual inspiration. Follow the written steps for your own business.

YOUR ACTION PLAN

- 1 Name the user, the task and the reason it matters.
- 2 Describe the successful path from start to finish.
- 3 Include empty, loading, invalid-input and failure states.
- 4 Write observable acceptance criteria before estimating the work.

EXAMPLE - ILLUSTRATIVE

A quote form must preserve entered text when a required field is missing and identify the field clearly.

CHECK YOUR RESULT

Can someone verify the feature without knowing how it was implemented?

Write a developer-ready feature request

Use the prompts below to make this resource specific to your business. Save a local copy after completing it. Keep passwords and private customer data out of this worksheet.

As a [user], I need [task] so that [reason].

Starting state:

Success:

Failure behavior:

Acceptance criteria:

DONE WHEN

Can someone verify the feature without knowing how it was implemented?
