

Prepare your first ten store products

Collect product information before entering it into your store.

FROM THE SETLY PROJECT LIBRARY

A real project screenshot for visual inspiration. Follow the written steps for your own business.

YOUR ACTION PLAN

- 1 Create a record for each product with a consistent name, description, price and stock status.
- 2 Record variants, weights or dimensions where they affect fulfillment.
- 3 Collect images you have rights to use and describe what each image shows.
- 4 Review delivery, returns and total-price information before testing a purchase.

EXAMPLE - ILLUSTRATIVE

A candle listing distinguishes the 180 g and 300 g variants instead of hiding size in a photograph.
